Bill of Materials

- 1 x TC-20 EPS SHIPPER
- 1 x Printed Outer Carton
- 6 x CP2020 Cool Packs @ +5°C
- 2 x CP2020 Cool Pack @ -18°C
- 2 x EPS Spacers (180 x 180 x 20mm)
- Inner Carton (Not Supplied)

Pre - Assembly Instructions

2 x Cool Pack illustrated YELLOW should be stored @ -18° C in a cold store for a minimum of 48 hours prior to use.

6 x Cool Pack illustrated BLUE should be stored @ +5° C in a cold store for a minimum of 48 hours prior to use.

Assembly Instructions

Once Cool Packs have been stored as indicated in the pre-assembly instructions they can be placed into the shipper, immediately.

Place Cool Pack around the product as indicated on the diagram.

Fit EPS shipper lid on top and secure outer carton flaps once the Cool Packs and product are assembled.

NB. Cool Packs are supplied in white bags and are illustrated as YELLOW or BLUE for ease of assembly on the diagram only.

Assembly Instructions must be strictly adhered to. Customers are advised to check the appropriateness of this package for their own shipping conditions prior to use.
